High Security solutions at DIY prices!

COLOUR DIGITAL MULTIPLEX CCTV SYSTEM WITH MOTION DETECTION*

COMPLETE READY-TO-FIT EVERYTHING IN THE BOX

"Professional quality CCTV at DIY prices!"

NO TAPES • PERMANENT 120 GB MEMORY • CONSTANT 24hr RECORDING • HI/MED/LO SETTINGS • UP TO 200 DAYS RECORDING • EASY TO INSTALL • MOTION DETECTION

ALL PRICES INCLUDE DELIVERY TO YOUR DOOR

FROM £795.00 EX. VAT

Budget priced but high resolution DVR system to replace existing VCR and multiplex systems or for new users requiring an entry level digital recording system. Featuring built-in multiplex switching to allow similar functions to an analog multiplex VCR system but with the superior recording function and resolution of a digital system. Easy to operate and with excellent quality playback.

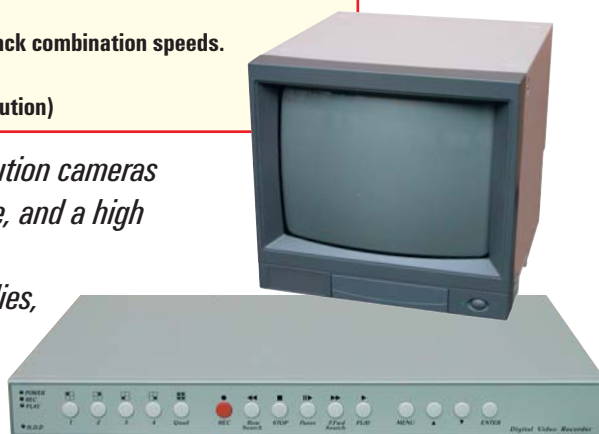

*Motion Detection records only when movement is detected by camera, this eliminates hours of needless recording.

KEY FEATURES

- Single camera, Quad or Multi Screen display in record or playback mode.
- Motion Detection.
- Multiplex recording for all connected cameras.
- High image rates up to real time.
- Multiple forward and reverse playback combination speeds.
- 120GB HDD supplied as standard.
- Up to 200 days recording (low resolution)

DVR systems include high resolution cameras suitable for internal/external use, and a high resolution CRT colour monitor.

All systems include power supplies, video cable and sufficient BNC to phono connectors for the equipment supplied.

EXECUTIVE Mk II
FOR SETTING IN CONCRETE BELOW
THE FLOOR

BURTON SQUARE DOOR UNDERFLOOR SAFES

These safes have the same security advantages as the round door underfloor safes, but with a larger capacity, greater accessibility and a higher cash rating.

- The shape, capacity and large door lends these safes to storing books and other large objects, such as cash boxes
- 13.5"x10.75" rectangular door
- Power assisted door for ease of use
- Twin locking bolts fitted with re-lockers
- Standard locking by 7-lever pick-resistant lock protected by hardened steel plate
- Two further bolts operated by anti-explosive device if locking mechanism is attacked
